PROFILE

I bring something special to every project I work on, being a very friendly person with a good sense of humor and a drive to get things done and on time, if not earlier. I have been designing and taking photographs since before high school. In high school I was first introduced to more interactive designing with motion graphics, cinematography, and animation. All of which I use and love to do today!

EXPERIENCE

Freelancer – James Wilkinson Photography & Design

2005 – Present

Providing clients with various interactive and photographic services from event photography, custom Wordpress and PHP sites, graphic design, Flash ActionScript 3 & animation, cinematography, and much more in the new media field.

Interactive Production Assistant – Info-Tech Research Group

2009 – Present

Working as part of a team to deliver a web site redesign to the clients, utilizing skills in xHTML, CSS, Ruby on Rails, Flash Action Script 3, and JavaScript & jQuery. Produced research publication videos utilizing skills in cinematography, non-linear editing in Apple Final Cut Pro and Adobe Premiere as well as directorial and cosmetic skills. Sound production as needed. Also created web graphics for online advertising of the research to our clients.
